Dräger signs agreement with Vector Controls and Automation Group to represent the fixed flame and gas detection systems portfolio

Houston – Dräger, an international leader in the field of safety technology, is proud to announce the appointment of Vector Controls and Automation Group (Vector CAG) a leading manufacturers representative of control and automation solutions. The organization will represent and promote Dräger’s fixed flame and gas detection systems portfolio sales in the states of Texas, Oklahoma, Kansas, Missouri, Southern Illinois, Iowa, Nebraska and South Eastern New Mexico.

“We are very pleased and excited to partner with Vector CAG as an official manufacturer representative for our innovative line of fixed gas and flame detection solutions,” said John Wilson, Dräger’s senior vice president of sales and marketing for safety solutions in North America. “Working alongside our own Dräger personnel and through Vector’s strong customer relationships, we will continue to grow our installed base of fire and gas detection system solutions in this key geographic territory.”

“Vector CAG has always committed to partnering with best-in-class manufacturing companies to represent the top products in the industry,” said Jared Boudreaux, president, Vector CAG. “We are proud to enhance our extensive safety product portfolio with Dräger’s world-class fixed gas and flame detection solutions.”

For more than 70 years Dräger has been at the forefront of innovative technology for life in gas and flame detection. For more information about its flame and fixed gas detection portfolio, click [here](#).

Dräger. Technology for Life®
