Flat rate, easy-to-use pricing

Workshop Repair/Calibration Service	Pricing
Flow Calibration	$850 per device including 3rd party
Flow Evaluation, Repair and Calibration	$1,500 per device (includes evaluation, repair and calibration, Excludes 3rd party repair)
Pressure/Temp Calibration	$315 per device including 3rd party
Pressure/Temp Evaluation, Repair and Calibration	$600 per device (includes evaluation, repair and calibration, Excludes 3rd party repair)
Level Evaluation, Repair, & Calibration	$1,300 per device (includes evaluation, repair and calibration, Excludes 3rd party repair)

Prices above reflect standard three-point calibrations performed in our ISO17025 lab. If accredited calibrations, added test points or special calibration options are required then additional fees would apply. Failure and replacement of sensors on devices are not included in pricing. The repair order cannot be processed without a fully executed decontamination form.
