VECTOR CONTROLS AND AUTOMATION GROUP HONORED BY HOUSTON CHRONICLE WITH 2020 TOP WORKPLACES AWARD

[Pearland, TX November 23, 2020] – Vector Controls and Automation Group, a leading manufacturing representative and distributor, has been awarded a Top Workplaces 2020 honor by The Houston Chronicle. This marks the third straight year that Vector CAG received the honor. The list is based solely on employee feedback gathered through a third-party survey administered by employee engagement technology partner Energage, LLC. The anonymous survey uniquely measures 15 drivers of engaged cultures that are critical to the success of any organization: including alignment, execution, and connection, just to name a few.

Jared Boudreaux, President, Vector CAG, celebrated the announcement with a message to the organization, “This recognition signifies that our employees continue to feel valued and proud to be part of Vector CAG especially during these difficult times. Receiving recognition such as this is further proof that our people and culture are the center of our brand and continue to be industry-leading differentiators. We are honored to be recognized for our industry expertise, but we are especially proud to consistently be ranked as a Best Place to Work for the third year in a row. Thank you to our Vector Family and the Houston Chronicle for the recognition”.

“In times of great change, it is more important than ever to maintain a connection among employees,” said Eric Rubino, Energage CEO. “When you give your employees a voice, you come together to navigate challenges and shape your path forward based on real-time insights into what works best for your organization. The Top Workplaces program can be that positive outcome your company can rally around in the coming months to celebrate leadership and the importance of maintaining an employee-focused culture, even during challenging times.”

About Vector Controls and Automation Group

Vector Controls and Automation Group has partnered with the top manufacturing partners in the industry to provide unsurpassed products, solutions, and technical service to meet the ever-changing industry needs.
