

# UPCOMING WEBINAR/VIDEO SESSION

**THURSDAY  
10.22.2020**

## Learn From The Experts

You're invited to join the Vector Controls & Automation Group for our "Learn From The Experts" educational webinar/video conference sessions. These sessions are an online technical training webinar or video conference and are intended for our customers in the automation, instrumentation, mechanical and analytical fields. The complimentary 45 minute training sessions are conducted by Vector CAG personnel and industry guest speakers.

## Upcoming Session: Thursday, October 22nd - 1:00PM-1:45PM CST

### Optical Flare Monitors, Which is Best For You?

Join Vector CAG and manufacturing partner, Williamson Corporation as we introduce you to Optical Flare Monitors (Pilot Monitor, Smokeless Flare Monitor, Flame Intensity Monitor). Used throughout the chemical and petrochemical industries, Williamson industrial infrared thermometer technology provides significant advantages over other technologies like thermocouples, UV detectors, and thermal imagers when it comes to monitoring flares and thermal reactors. During this webinar event you will take a deeper dive with our experts to learn more about the following;

- Smokeless Flare Assist Control For Optimal Performance
- Assure High CE
- Prevent Smoke
- Lower Operating Costs
- Extend Flare Tip Component Lifetime
- Grade-Mounted Flare Pilot Monitor
- Assure Continuous Pilot Flame
- Accessible for Service
- Strong Performance During Inclement Weather

Together, Vector CAG and Williamson Corporation look forward to sharing this perfect industry solution with you!
