

## INDUSTRY SEGMENTS

- Upstream Oil & Gas
- Midstream Oil & Gas
- Power & Energy
- Chemical & PetroChemical
- Food & Beverage

## Vector CAG knows custom engineered compressed and instrument air solutions.

We have the capabilities to meet NEMA 4 area classification as well as custom piping to accommodate customer desired bypasses and material of construction. With our in-house expertise, we have the ability to engineer a system for the industry segments that we serve based on the customer's requirements.

## MANUFACTURING PARTNERS

## WHY VECTOR CAG

### Total Compressed Air Systems

Total Compressed Air Systems help compressed air users reduce energy costs and improve productivity by analyzing, managing and controlling their compressed air systems. Each component of the system is carefully matched for capacity and pressure to provide maximum performance and energy efficiency.

### Complete Compressed Air System Solution:

- Air compressor
- Wet storage tank
- Air dryer
- Filters
- Flow controller
- Drains
- Oil/water separator
- Dry storage

### Benefits

- Repeatable
- Customizable
- Moveable

### Applications

- Upstream remote location valve actuation (5HP-20HP)
- Midstream processing plant (50HP-100HP)
