### Compliance to Food Safety and Quality Standards

Meet global hygiene regulations for food safety and quality standards with robust, proven in-use instrumentation. Benefit from traceable and accredited calibration services at your facility or in our lab.

### Repeatability in Processing

Ensure consistent product quality and taste with our reliable inline quality monitoring. Benefit from a complete instrument portfolio and a strong global service organization.

### Resource Conservation

Get real-time, accurate data from your critical process points and save money on raw materials, water, energy and labor, without interruption in your production.

### High Plant Availability

Receive quality guidance of the optimum-fit products for your specific needs from a network of global and local experts who stay by your side through the entire life cycle ensuring plant availability.

**Regulatory Compliance**

**Quality Assurance**

**Cost Pressure**

Led by experienced trainers currently working in the process industry, Vector University is dedicated to helping customers with most up to date

knowledge to keep their processes running safely, optimally and cost effective. Courses include Basic Instrumentation, Fire and Gas and Advanced Analytics. Full schedule and additional information is available at [www.vectorcag.com](http://www.vectorcag.com).

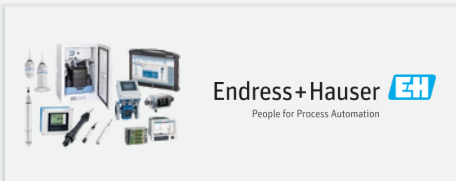

## Valued Partner, Solution Provider

- We are a single source of equipment for customers, providing true packaged solutions to meet the ever changing industries needs.
- Offer an extensive and unsurpassed product portfolio to deliver the most cost effective result.
- Strong technical support, versatile knowledge and integration of many engineering platforms.

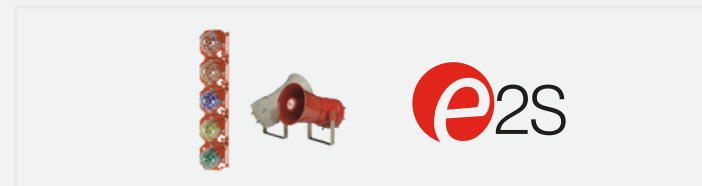

### INSTRUMENTATION & AUTOMATION

### MECHANICAL & ELECTRICAL

### GAS DETECTION

### PH MEASUREMENT, CONDUCTIVITY AND TOTAL SUSPENDED SOLIDS

### Vector Offers Calibration Services & Heartbeat Technology

F&B
