VECTOR UNIVERSITY℠

At Vector University, we provide extensive on-site education & hands-on training for individuals or large teams working in the process industry. Industry experts teach our courses and provide essential knowledge about the cutting-edge technology, applications, and practices involved in processing systems. Vector University's state-of-the-art Process Training Unit (PTU®) gives participants practical experience with the instrumentation they'll be working with in the field, reinforcing classroom learning with direct application. **REGISTER ONLINE TODAY.**
