

UPCOMING WEBINAR/VIDEO SESSION

Learn From The Experts

You are invited to join the Vector Controls & Automation Group for our "Learn From The Experts" educational webinar/video conference sessions. These sessions are an online technical training webinar or video conference and are intended for our customers in the automation, instrumentation, mechanical and analytical fields. The complimentary 45 minute training sessions are conducted by Vector CAG personnel and industry guest speakers.

**THURSDAY
7.23.2020**

Upcoming Session: Thursday, July 23rd - 1:00PM-1:45PM CST

Coriolis: The Process Analyzer in F&B Industry

- How Coriolis mass flow is used to ensure accurate and reliable measurement of Brix, Baume, %alcohol, overrun, % fat etc.
- Technology highlights
- Application examples
- What to expect/overcome challenges

Quality and profitability is directly linked to correct concentration of ingredients or final product in the food & beverage industry. And with growing demands placed on food manufacturing processes, the food & beverage production industry is facing new challenges. We know that the Food & Beverage industry is an integral part of our world operations and provides the necessary goods for customers at this time. Whether you need to upgrade your instrumentation to comply with hygiene regulations and standards, reduce utility costs or monitor critical product parameters, this webinar provides the answers you require. Together, Vector CAG and Endress+Hauser look forward to sharing this perfect industry solution with you!

Endress+Hauser 
People for Process Automation
